**Early Human
Development**

Subject index

Volume 57 (2000)

Abdominal circumference: Fetal biometry; Ethnic differences; Biparietal diameter; Femur length 57, 1

Acuity: Docosahexaenoic acid; Alpha-linolenic acid; Human milk; Infant; Meta-analysis; Omega-3 fatty acids; Vision 57, 165

Airway pressure: Neonates; Crying; Respiratory muscle strength 57, 149

Alpha-linolenic acid: Docosahexaenoic acid; Human milk; Infant; Meta-analysis; Omega-3 fatty acids; Vision; Acuity 57, 165

Arterial occlusion method: Near infrared spectroscopy; Venous occlusion method 57, 211

Babinski sign: Flexion reflex; Human neonate; Flexor muscles 57, 105

Bile acid pool: Hepatic bile acids; Taurine metabolism; HPLC; Lithocholic acid 57, 71

Biparietal diameter: Fetal biometry; Ethnic differences; Abdominal circumference; Femur length 57, 1

Birth weight/blood pressure association: Low birth weight; Cigarette smoking; Pregnancy; Blood pressure; Early childhood 57, 137

Blood glucose: Reagent strips; Haematocrit 57, 111

Blood pressure: Dopamine; Volume expansion; Cerebral blood flow; Left ventricular output; Preterm neonate 57, 157

Blood pressure: Low birth weight; Cigarette smoking; Pregnancy; Early childhood; Birth weight/blood pressure association 57, 137

Bronchopulmonary dysplasia: High frequency ventilation; Hyaline membrane disease; Pulmonary function test 57, 225

Cardiac development: Left ventricular diastolic filling; Full-term infant; Doppler echocardiography 57, 49

Cerebral blood flow: Dopamine; Volume expansion; Blood pressure; Left ventricular output; Preterm neonate 57, 157

Child health: Souls; Soul calling ceremony; Naming ceremony; Child survival; Hmong culture 57, 189

Child survival: Souls; Soul calling ceremony; Naming ceremony; Child health; Hmong culture 57, 189

Cigarette smoking: Low birth weight; Pregnancy; Blood pressure; Early childhood; Birth weight/blood pressure association 57, 137

Cow's milk: Ganglioside composition; Human milk; Infant formulas 57, 25

Crying: Neonates; Airway pressure; Respiratory muscle strength 57, 149

Developmental follow-up: Low birth weight; Fine motor deficits; Nursery school; Visual-motor skills 57, 33

- Docosahexaenoic acid:** Alpha-linolenic acid; Human milk; Infant; Meta-analysis; Omega-3 fatty acids; Vision; Acuity 57, 165
- Dopamine:** Volume expansion; Blood pressure; Cerebral blood flow; Left ventricular output; Preterm neonate 57, 157
- Doppler echocardiography:** Left ventricular diastolic filling; Full-term infant; Cardiac development 57, 49
- Doppler flow waveform:** Fetal echocardiography; Pulmonary vein 57, 95
- EGF:** Lung growth; Pulmonary hypoplasia; Growth factor 57, 61
- Early childhood:** Low birth weight; Cigarette smoking; Pregnancy; Blood pressure; Birth weight/blood pressure association 57, 137
- Ethnic differences:** Fetal biometry; Biparietal diameter; Abdominal circumference; Femur length 57, 1
- Femur length:** Fetal biometry; Ethnic differences; Biparietal diameter; Abdominal circumference 57, 1
- Fetal biometry:** Ethnic differences; Biparietal diameter; Abdominal circumference; Femur length 57, 1
- Fetal echocardiography:** Pulmonary vein; Doppler flow waveform 57, 95
- Fine motor deficits:** Low birth weight; Developmental follow-up; Nursery school; Visual-motor skills 57, 33
- Flexion reflex:** Human neonate; Flexor muscles; Babinski sign 57, 105
- Flexor muscles:** Flexion reflex; Human neonate; Babinski sign 57, 105
- Full-term infant:** Left ventricular diastolic filling; Cardiac development; Doppler echocardiography 57, 49
- Ganglioside composition:** Human milk; Cow's milk; Infant formulas 57, 25
- Growth factor:** Lung growth; Pulmonary hypoplasia; EGF 57, 61
- Haematocrit:** Blood glucose; Reagent strips 57, 111
- Hepatic bile acids:** Taurine metabolism; HPLC; Lithocholic acid; Bile acid pool 57, 71
- HPLC:** Hepatic bile acids; Taurine metabolism; Lithocholic acid; Bile acid pool 57, 71
- High frequency ventilation:** Hyaline membrane disease; Bronchopulmonary dysplasia; Pulmonary function test 57, 225
- Hmong culture:** Souls; Soul calling ceremony; Naming ceremony; Child health; Child survival 57, 189
- Human autopsied liver:** Vitamin K cycle; Vitamin K epoxidase; Vitamin K-2,3-epoxide reductase; Vitamin K reductase 57, 15
- Human milk:** Docosahexaenoic acid; Alpha-linolenic acid; Infant; Meta-analysis; Omega-3 fatty acids; Vision; Acuity 57, 165
- Human milk:** Ganglioside composition; Cow's milk; Infant formulas 57, 25
- Human neonate:** Flexion reflex; Flexor muscles; Babinski sign 57, 105
- Hyaline membrane disease:** High frequency ventilation; Bronchopulmonary dysplasia; Pulmonary function test 57, 225
- Infant formulas:** Ganglioside composition; Human milk; Cow's milk 57, 25
- Infant:** Docosahexaenoic acid; Alpha-linolenic acid; Human milk; Meta-analysis; Omega-3 fatty acids; Vision; Acuity 57, 165
- Left ventricular diastolic filling:** Full-term infant; Cardiac development; Doppler echocardiography 57, 49
- Left ventricular output:** Dopamine; Volume expansion; Blood pressure; Cerebral blood flow; Preterm neonate 57, 157
- Lithocholic acid:** Hepatic bile acids; Taurine metabolism; HPLC; Bile acid pool 57, 71
- Low birth weight:** Cigarette smoking; Pregnancy; Blood pressure; Early childhood; Birth weight/blood pressure association 57, 137
- Low birth weight:** Developmental follow-up;

Fine motor deficits; Nursery school; Visual-motor skills 57, 33

Lung growth: Pulmonary hypoplasia; Growth factor; EGF 57, 61

Meta-analysis: Docosahexaenoic acid; Alpha-linolenic acid; Human milk; Infant; Omega-3 fatty acids; Vision; Acuity 57, 165

Naming ceremony: Souls; Soul calling ceremony; Child health; Child survival; Hmong culture 57, 189

Near infrared spectroscopy: Arterial occlusion method; Venous occlusion method 57, 211

Neonates: Airway pressure; Crying; Respiratory muscle strength 57, 149

Neuromotor outcome: Preterm infant; Posterior tibial somatosensory evoked potential; Visual evoked potential 57, 123

Nursery school: Low birth weight; Developmental follow-up; Fine motor deficits; Visual-motor skills 57, 33

Omega-3 fatty acids: Docosahexaenoic acid; Alpha-linolenic acid; Human milk; Infant; Meta-analysis; Vision; Acuity 57, 165

Posterior tibial somatosensory evoked potential: Preterm infant; Neuromotor outcome; Visual evoked potential 57, 123

Pregnancy: Low birth weight; Cigarette smoking; Blood pressure; Early childhood; Birth weight/blood pressure association 57, 137

Preterm infant: Neuromotor outcome; Posterior tibial somatosensory evoked potential; Visual evoked potential 57, 123

Preterm neonate: Dopamine; Volume expansion; Blood pressure; Cerebral blood flow; Left ventricular output 57, 157

Pulmonary function test: High frequency ventilation; Hyaline membrane disease; Bronchopulmonary dysplasia 57, 225

Pulmonary hypoplasia: Lung growth; Growth factor; EGF 57, 61

Pulmonary vein: Fetal echocardiography; Doppler flow waveform 57, 95

Reagent strips: Blood glucose; Haematocrit 57, 111

Respiratory muscle strength: Neonates; Airway pressure; Crying 57, 149

Soul calling ceremony: Souls; Naming ceremony; Child health; Child survival; Hmong culture 57, 189

Souls: Soul calling ceremony; Naming ceremony; Child health; Child survival; Hmong culture 57, 189

Taurine metabolism: Hepatic bile acids; HPLC; Lithocholic acid; Bile acid pool 57, 71

Venous occlusion method: Near infrared spectroscopy; Arterial occlusion method 57, 211

Vision: Docosahexaenoic acid; Alpha-linolenic acid; Human milk; Infant; Meta-analysis; Omega-3 fatty acids; Acuity 57, 165

Visual evoked potential: Preterm infant; Neuromotor outcome; Posterior tibial somatosensory evoked potential 57, 123

Visual-motor skills: Low birth weight; Developmental follow-up; Fine motor deficits; Nursery school 57, 33

Vitamin K cycle: Vitamin K epoxidase; Vitamin K-2,3-epoxide reductase; Vitamin K reductase; Human autopsied liver 57, 15

Vitamin K epoxidase: Vitamin K cycle; Vitamin K-2,3-epoxide reductase; Vitamin K reductase; Human autopsied liver 57, 15

Vitamin K reductase: Vitamin K cycle; Vitamin K epoxidase; Vitamin K-2,3-epoxide reductase; Human autopsied liver 57, 15

Vitamin K-2,3-epoxide reductase: Vitamin K cycle; Vitamin K epoxidase; Vitamin K reductase; Human autopsied liver 57, 15

Volume expansion: Dopamine; Blood pressure; Cerebral blood flow; Left ventricular output; Preterm neonate 57, 157
